

Clay County Public Health Center is now offering free COVID-19 testing for Clay County residents, whether they have **symptoms or not**. Our current test is nasopharyngeal (through the nose) and tests for those that are currently infected with COVID-19. Reliable antibody testing that can determine whether someone has ever had COVID-19 is not yet available.

Clay 郡公共卫生中心现在向所有 Clay 郡居民提供免费的 COVID-19 测试，无论该居民是否有症状。我们现有的通过鼻腔进行的咽拭子检测是检测被检测人员是否正感染 COVID-19。而能准确检测被检测人员是否曾经感染 COVID-19 的抗体测试暂时没有。

Testing will be done **by appointment only**, five days a week. If you wish to be tested, please fill out the [Testing Questionnaire](#).

测试均需预约，一周五天。如果你希望被测试，请填写这份测试问卷。

If testing is available for you, health department staff will be in contact with you shortly to schedule an appointment. Please watch your phone and email closely, allowing unknown calls and checking your spam folders. Staff will give you more information as needed, including where to go for the drive-thru testing and what the process looks like.

如果有测试可以提供给您，卫生部的工作人员会尽快与您联系安排检测预约。敬请留意您的电话和邮箱信息，不要屏蔽未知电话并检查您的垃圾邮箱。如果需要，我们的工作人员会向您提供更多详尽信息，比如到哪里进行检测和检测过程详细信息。

The health center site is currently able to administer 75 tests per day. Demand for testing differs day to day but we are not always at full capacity so do not hesitate to fill out the questionnaire.

目前，健康中心每天可以进行 75 个测试。每天的测试需求量不同，并不是每天都会达到测试限额，所以请尽量填写问卷信息。

Testing is also available through the options below.

测试还可以通过以下途径进行。
